Subject: Water Gen update:

Hi Elise. The work group had a call this afternoon. Here is the update.

The Lab sent Ed Russo of WaterGen the Materials Transfer Agreement and the Non-Disclosure Agreement for their review on 8/25.

Laura and Sarah have not heard back from WaterGen with comments on the CRADA. Ardra sent the CRADA and Statement of Work to WaterGen on July 28. We had a conference call with WaterGen to discuss the CRADA on August 14th.

The Lab sent WaterGen an updated Statement of Work, reflecting agreements made at the face--to-face meeting they had with the company last week.

Mike Nye of Water went through X-Prize and contacted 3 International companies and so far have heard back from 2. Dew Point (Canada) and Requench (UK).

He will also contact a US company, Sky Water. He has two conference calls set up with the companies who have replied.

That's it! - Laura

*"Everything should be made as simple as possible,
but not simpler." - Albert Einstein*
